**Subject:** RE: Exide permit

Thanks for your message. Sounds like we should give Grant a call. Tom and I will follow-up. (FYI – Tom has been in touch with DTSC in the past few days and beyond and was in touch with Grant a couple weeks ago).

PS. Sorry I couldn't attend your all-hands today.

Jeff Scott

**Subject:** Exide permit

I got a call from Alice Reynolds (Cal EPA enforcement chief) today. Matt Rodriguez asked her to give me a call in follow up to a conversation between Jared and Matt at ECOS. She wanted to know what our concerns were. I told her about the call with the Congressional Representatives –

urging EPA to pay close attention to the State's activities at Exide, particularly with respect to the permit. She told me that DTSC would be making the permit decision (although Matt has been closely involved). She didn't think a decision was imminent and offered to discuss – or better requested that we could call/discuss with Grant Cope who was very involved with this.

Jeff, Grant's number is 916-322-0556. I'm happy to make an introduction if you would like.
